EDUCATION

- Noida institute of engineering and technology** Greater Noida, India
Bachelor of Technology - Information Technology; GPA: 7.44 2023 -2027(expected)

SKILLS SUMMARY

- Languages:** Python, PHP, C++, JavaScript, SQL, Bash, JAVA
- Frameworks:** Scikit, NLTK, SpaCy, TensorFlow, Keras, Django, Flask, NodeJS, LAMP
- Tools:** Kubernetes, Docker, GIT, PostgreSQL, MySQL, SQLite
- Platforms:** Linux, Web, Windows, Arduino, Raspberry, AWS, GCP, Alibaba Cloud, IBM Cloud
- Soft Skills:** Leadership, Event Management, Writing, Public Speaking, Time Management

EXPERIENCE

- Vice President, Visionary vault Club** NIET, Noida
Leadership & Research Aug 2024 - Present
 - Led initiatives focused on Virtual Reality (VR), Augmented Reality (AR), and Metaverse technologies.
 - Conducted research sessions and technical discussions on immersive technologies and future industry applications.
 - Organized workshops, technical events, and student engagement activities across campus.
 - Coordinated club members and promoted innovation-driven learning among students.
- Cisco Networking Academy Trainee** Cisco Networking Academy
Networking & Cybersecurity Training 2026
 - Completed hands-on networking labs involving routing, switching, VLANs, subnetting, and network troubleshooting.
 - Configured routers and switches using Cisco Packet Tracer simulations.
 - Developed foundational knowledge of cybersecurity, network security, and access control concepts.
 - Applied networking principles through practical lab exercises and real-world scenarios.

PROJECTS

- Transport Connect – Smart Public Transport Networking Platform (React Native, Firebase, Mobile Development):** Developed a mobile platform enabling passengers to discover and connect with nearby commuters through trip-based matching. Implemented QR-based route joining, anonymous discovery mode, and real-time user interaction features. Designed scalable authentication and cloud database architecture using Firebase services. Tech: React Native, Firebase, JavaScript, REST APIs (2026 – Present)
- Wedding Crush – Event-Based Matchmaking Mobile App (React Native, Supabase, Mobile Development):** Engineered a cross-platform mobile application for event-based social networking and matchmaking. Implemented secure authentication, user management, and event room participation workflows. Designed a double-match recommendation logic and scalable chat architecture. Tech: React Native, Supabase, JavaScript, REST APIs (2025 – Present)
- Smart Resume Screening & Candidate Ranking System (Machine Learning, NLP):** Built an intelligent resume screening system using Natural Language Processing techniques. Applied TF-IDF vectorization and similarity scoring for candidate-job matching. Automated resume ranking and candidate shortlisting workflows. Tech: Python, Scikit-Learn, NLP, Pandas (2025)

CERTIFICATIONS

- Cisco Networking Academy – Introduction to Networks:** Completed networking fundamentals training covering IP addressing, routing, switching, VLANs, and troubleshooting concepts.
- Cisco Networking Academy – Cybersecurity Essentials:** Learned cybersecurity fundamentals including threat analysis, network security, access control, and risk management.
- Microsoft Azure Fundamentals (AZ-900):** Acquired foundational knowledge of cloud concepts, Azure services, pricing models, and cloud security principles.
- Data Structures & Algorithms – Infosys Springboard:** Completed industry-oriented training covering algorithms, data structures, complexity analysis, and problem solving.
- Object-Oriented Programming using Python – Infosys Springboard:** Learned object-oriented design principles, classes, inheritance, polymorphism, and software development best practices.
